**LT** : Engineering and construction major Larsen & Toubro reported a 3 percent year-on-year decline in consolidated net profit for the fiscal fourth quarter, even as revenue growth remained healthy and order inflows stayed robust. The company posted a consolidated net profit of Rs 5,326 crore for Q4 FY26, compared with Rs 5,497 crore in the year-ago period. The decline was largely due to a high base, as the corresponding quarter last year included an exceptional gain of Rs 475 crore.

- India's economic growth forecast for this fiscal year is around 7 percent. This projection depends on the Iran war ending soon. If the conflict persists, growth could slow to 6.5 percent. Companies are building buffers against future shocks. Private investments are expected to rebound once the West Asia conflict subsides. Consumption demand remains strong.
- As per the updated standard operating procedure (SOP) for processing FDI applications, the government has also rolled out reporting guidelines for investments in India from a company having any direct or indirect ownership by a citizen or an entity of a country sharing a land border with India.
- The Reserve Bank of India has released new draft rules. Banks can now hold specific non-financial assets only to recover bad loans. These assets must be sold within seven years. Selling them back to borrowers is prohibited. This aims for transparency and better recovery. The rules are open for public comment until May 26.
